KURT FIREARMS INDUSTRIES

# Features of Monza

## BOLT

With two lugs the Monza requires a 60 degree bolt lift to unlock. Bolt mechanism of Monza can be disassembled without any tools.

## BARREL

Button rifled original Monza barrel made of high-performance steel with 4 grooves and 4 sets. Twist rates are 1/10 RH(20", 22") and 1/12(24") RH , finished with 11° crown. Anodized finishing for maximum scratch and corrosion protection. Muzzle thread available for all models.

## STOCK & COMB RISER

Perfectly ergonomic synthetic stock reinforced with fiberglass combines lightweight and durability. Fixed or adjustable comb riser options provides perfect harmony between the rifle and the shooter.

## SAFETY AND TRIGGER

Ergonomically perfect manual safety system locks bolt and trigger in single movement. The trigger pull weight of Monza is adjustable between 2,60 lbs.(1.2 kg) to 5,30 lbs.(2,4 kg). Length of pull is adjustable + - 9,5 mm. Adjustable for creep and overtravel.

## SCOPE MOUNT & RAIL

Mil STD 1913 22 mm picatinny rail is removable, receiver suitable for popular types of other mounts. Monza comes ready to install different types of mount bases when picatinny is removed. 2 inch (5 cm) picatinny bipod rail is compatible with most accessories.

## MAGAZINE

Detachable, 4 capacity, double stack steel magazine sits perfectly in order to preserve sleek, slender silhouette of Monza.

## MONZA CASE

Monza comes rifle case with features exterior pocket for easy access to your shooting accessories.
